UNACCEPTABLE PACKING. Avoid extra charges or a delay in pickup or shipping.

X Damaged Containers
Water damage, ripped, broken, or punctured containers are prohibited.

X Off-Spec Waste Items
Trash, cardboard, plastic bags, and other off-spec waste items are prohibited.

X Waste Items Must Be Whole
Place kitty litter or oil-absorbent matter around waste to protect it from breaking or sudden shocks.

X Broken or Leaking Waste
We CANNOT accept waste items that are broken or leaking.

X Storage Limit
DO NOT store waste over a 1 year period. Universal waste has a 1 year storage limit.

40 CFR Part 273
This information is intended to be a brief overview of the regulations for managing “Universal Wastes”. It is not a complete guide, additional regulations may apply. Review 40 CFR Part 273, and your state regulations, for all applicable requirements.

STEPS 1-5 MUST BE COMPLETED BEFORE PICKUP OR SHIPPING.

1 Containers
Use the proper container for your waste outlined below.

2 Labeling
All containers MUST BE labeled when stored.

3 Accumulation Date
Labels MUST HAVE accumulation date completed. (The date you started filling the container)

4 Waste Types
Waste in a container MUST NOT be commingled with other waste.

5 Closed & Secured
Containers MUST BE properly sealed and kept in a cool dry location.

MERCURY DEVICE TYPES*
Thermometers, Thermostats, Mercury-Switches / Relays, medical equipment, and other mercury devices.

*Items listed above MUST BE secured in poly / plastic drums.

UNACCEPTED
Liquid – Mercury in non-compliant collection container.

MERCURY DEVICES
UNIVERSAL WASTE HANDLING PROCEDURES

Regulatory requirements differ from small to large quantity handlers of universal waste, but in any case, handlers of universal waste must be trained in UWM (universal waste management).
